Spaces (at least)	452
Covered	14
Secure: lockers, sheds, hangars, staffed	6
In the city's highest-theft quarter	11

METHOD

About the data

Thefts. Police-recorded bicycle thefts from data.police.uk (Home Office and police forces), published monthly about two months behind. The police move each crime to the nearest of a fixed set of anonymous points on a street or public place, so places are approximate. Only thefts reported to the police are counted. Known gaps: Greater Manchester Police has not supplied data since July 2019; British Transport Police (railway stations) has not supplied data since early 2025.

Parking. Places and capacity mapped by volunteers in OpenStreetMap; some racks list no capacity, so space counts are a minimum. A place's risk compares police-recorded thefts within 150 m over 12 months with every other bike parking place in the city. Counts are not adjusted for how many bikes are parked or ridden in an area, so busy centres show more thefts. A lower risk is not a guarantee.
